Closing date for registration: 21<sup>st</sup> October 2013

*YOUR BUSINESS  
IS OUR PRIORITY*

### INTRODUCTION

The Malaysia Inland Revenue Board (IRB) is aggressively carrying out tax audit and investigation to combat with tax evasions and to detect tax frauds. IRB is imposing 45% penalties to tax payers for the understatement of profit.

In 2009, there were 1,399,660 cases audited by the IRB. In 2010, this number increased by 24% to 1,732,258 cases.

Failure to comply with the Income Tax legislation, guidelines and public rulings may expose the taxpayer to additional taxes and penalties.

### Course Objective

This workshop aims to provide information about the relevant Income Tax penalties provision, practical issues and key tips in managing and addressing the matter.
